# True Performance

## – Digitally Delivered

### Avoid Peak-and-Valley Processing

Fluctuating yield, unpredictable quality, unexpected downtime – that's the peak-and-valley trap.

BAADER offers consistent performance with intelligent vision and software:

- / Real-time quality detection
- / Instant corrective actions
- / Maximum yield and efficiency

Consistent performance- every bird, every shift, every day.

# WELCOME TO VIV EUROPE 2026

## THE 25TH EDITION!

Almost 50 years ago, a vision was born: to create the world's most dynamic platform for the animal protein and agri-food industry. Today, as we celebrate this landmark edition of VIV Europe in Utrecht, that vision has never felt more alive. We are immensely proud to welcome you, whether you are a returning friend or joining us for the very first time, to what promises to be an extraordinary milestone show.

Under the theme “Showroom of the World”, VIV Europe 2026 reaffirms its position as the premier global meeting point for new product launches, innovation, trade, and knowledge in the feed-to-food sector. More than ever, this show is where the industry comes to discover what Europe and the world have to offer: the boldest ideas, the most advanced technologies, and the brightest minds in Agrifood. All gathered under one roof.

This edition, we go beyond trade. VIV Europe stands as the true heart of innovation, bringing together industry leadership, entrepreneurship, academics, and experts to drive forward the conversations and solutions that matter most to our sectors and to Europe today. Our four content pillars reflect the defining challenges and opportunities of our time:

- **Protein Transition:** Navigating the shift toward diverse, sustainable protein sources for a growing world.
- **Digitalization & Robotics:** Harnessing the power of technology to transform how we produce, process, and distribute food.
- **Animal Health & Wellbeing:** Placing the welfare of animals at the core of responsible and resilient production systems.
- **Climate Smart & Sustainable Agriculture:** Building farming systems that are fit for the future and kind to our planet.

We are also delighted to welcome Poland as our Country of Honor this edition, offering a recognition of the country's remarkable growth and contribution to the European agri-food production, and a celebration of the strong ties that connect our industry across borders.

At the heart of the show experience is VIV Square in Hall 10, our vibrant welcome hall and daily stage hub. Here, thought leaders and innovators will take the stage each day in programs hosted by Wageningen University and Research, Rabobank, Common Source, and VIV. This is a space created for dialogue, discovery, and the exchange of ideas that move our industry forward.

On behalf of the entire VIV Europe team, I want to express our deepest gratitude to our exhibitors, partners, speakers, and visitors whose continued trust and enthusiasm make this show what it is. Twenty-five editions in, the journey is far from over. In fact, the best is yet to come.

Here's to celebrating the past, embracing the present, and building the future.

Together, we grow!

**COUNTRY OF HONOR**

# **POLAND: A MAJOR EUROPEAN AGRIFOOD POWERHOUSE**

As the Country of Honor at VIV Europe 2026, Poland represents one of Europe's most dynamic and influential agrifood markets. With a strong position in poultry, feed production, processing, and agricultural innovation, Poland plays a key role in shaping the future of the global animal protein industry.

**Join us in celebrating Poland as Country of Honor at VIV Europe 2026 and discover the innovation, expertise, and partnerships shaping the future of agrifood.**

# DID YOU KNOW...?

**Poultry:** Poland is one of the largest poultry producers and exporters in Europe, supplying markets across the EU and beyond.

**Eggs:** Poland ranks among Europe's leading egg producers, supported by a highly developed poultry sector.

**Livestock:** Beyond poultry, Poland also has strong dairy, cattle, and swine production sectors with growing export potential.

**Feed:** Poland has one of the fastest-growing feed production sectors in Central and Eastern Europe.

**Exports:** Poland's agrifood sector exports products to more than 100 countries worldwide.

**Location:** Located at the crossroads of Western and Eastern Europe, Poland serves as a strategic hub for agrifood trade and logistics.
